

Sight Sciences to Report Third Quarter 2023 Financial Results on November 7, 2023

October 24, 2023

MENLO PARK, Calif., Oct. 24, 2023 (GLOBE NEWSWIRE) -- Sight Sciences, Inc. (Nasdaq: SGHT) ("Sight Sciences," or the "Company"), an eyecare technology company focused on developing and commercializing innovative technology intended to transform care and improve patients' lives, today announced it will report financial results for the third quarter ended September 30, 2023, after the market close on Tuesday, November 7, 2023. The company's management will discuss the results during a conference call beginning at 1:30 p.m. Pacific Time / 4:30 p.m. Eastern Time.

Investors interested in listening to the conference call may do so by accessing a live and archived webcast of the event at www.sightsciences.com, on the Investors page in the News & Events section. The webcast will be available for replay for at least 90 days after the event.

About Sight Sciences

Sight Sciences is an eyecare technology company focused on developing and commercializing innovative solutions intended to transform care and improve patients' lives. Using minimally invasive or non-invasive approaches to target the underlying causes of the world's most prevalent eye diseases, Sight Sciences seeks to create more effective treatment paradigms that enhance patient care and supplant conventional outdated approaches. The Company's OMNI® Surgical System is a minimally invasive glaucoma surgery ("MIGS") technology indicated to reduce intraocular pressure in adult patients with primary open-angle glaucoma ("POAG"), the world's leading cause of irreversible blindness. The Company's TearCare System technology is 510(k) cleared for the application of localized heat therapy in adult patients with evaporative dry eye disease due to meibomian gland dysfunction ("MGD") when used in conjunction with manual expression of the meibomian glands, enabling office-based clearance of gland obstructions by physicians to address the leading cause of dry eye disease. The Company's SION™ Surgical Instrument is a manually operated device used in ophthalmic surgical procedures to excise trabecular meshwork.
